A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as a savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in "small of back," gnawing or distressed feeling in stomach, perhaps nausea, or "sour risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or more permanently than Dr. Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver, biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to it until you are vigorous and strong.

The "Discovery" is non-secret, non-toxic, non-poisonous, and is made from natural roots with a full list of its ingredients printed on each bottle wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.

Don't accept a substitute of unknown composition for this non-secret medicine of known composition.

BANKER ALBERT'S MACHINE

AUTO-ENTHUSIAST AT SEVENTY

Hon. John H. Albert, the pioneer banker and good roads enthusiast, is proud as a boy with his first pair of pants, over his new White Steamer that has just arrived from the factory at Cleveland. It is really the second car the Alberts have had, as he has already had one White Steamer, and this one is a beauty. It is a model 6, in Brewster green, aluminum body, no wood whatever, and cost \$2275 at the factory, with top and some extras. It would not belong to Mr. Albert if it did not have all the latest extras. The engine is a compound affair, 24-horse power, but capable of developing 100-horse power when needed for a short spurt or in a tight place. There is the most perfect control with a throttle just like a locomotive, and steel cable brakes, the car itself being a thing of beauty and a joy forever. A young woman couldn't be more pleased with a new baby than he is with his new machine. He believes in steam, as he contends it has been more highly perfected, and is under more perfect control than gasoline. The operations of his White are automatic. It heats itself, cools itself off, feeds itself and quenches its own thirst, and runs fifteen miles on one gallon of gasoline, which is only used as fuel to make steam. The tank holds enough to run 150 miles on fairly good roads. The steam is generated in a small cylinder, and after being used the first time under a pressure of 550 to 650 pounds, is condensed and used in another set of cylinders under lower pressure. Mr. Albert drove his machine up from Portland the other afternoon, and never hit a stick or stone, so perfect was his control over the machine. It runs almost noiseless and it is a pleasure to see it take the hills.

Hon. John H. Albert was 70 years young on the 8th of February. He has been 43 years in Oregon, and says he will stay 43 more and then if he likes it will settle down. Mr. Albert has been an auto enthusiast for many years, and takes the greatest pleasure in covering the country with his machine. He says with a fine team a man can go ten or twelve miles in the evening after business, but with a good auto he can cover forty to sixty miles. This means a greater intercourse between people, and more thorough acquaintance with the country and its resources.

City Denies Responsibility—The City of Woodburn, through their attorneys, H. Overton and G. G. Bingham, has filed an answer to the complaint of Sally Graham, of Woodburn, who asks damages for injuries sustained by falling through a hole in one of the Woodburn sidewalks. The answer states that it was through neglect and lack of care that the plaintiff sustained injuries by falling through the walk as the passed the place daily and was aware of the conditions. The answer also states that the walk was in good condition prior to November 12, which was near the time of the alleged accident the city would not be responsible.

March Weather.

The official weather bureau kept by M. P. Baldwin shows in its report of March a surprisingly small precipitation in this vicinity, the rainfall in Salem being 2 inches less than in Portland, according to a comparison with the Portland bureau, and the precipitation for the month of March on the average is about 6 inches short of that of former years.

Following is a summary of the month's weather report:
